**COMMENTS ON REVISED GROUNDWATER VERIFICATION SAMPLING LOCATIONS  
PLAN FOR FORMER UNDERGROUND STORAGE TANK (UST) GROUP 651 SITE, FORMER  
MARINE CORPS AIR STATION, EL TORO, SWRCB GEOTRACKER ID: T0605901129**

Dear Mr. Newton:

We have reviewed the above referenced document, dated October 20, 2005, which we received on October 22, 2005. This work plan proposes revised groundwater sampling locations utilizing cone penetrometer testing (CPT) at six locations proximal to the former UST Group 651 Site. Information collected will be used to propose a location for a monitoring well downgradient of the UST contaminant plume source area for further plume delineation. This addendum to the work plan for verification of groundwater conditions at UST Group 651 Site is approved.

For any questions, please call me at (951) 782-4494, or send email to [jbroderick@waterboards.ca.gov](mailto:jbroderick@waterboards.ca.gov).

Sincerely,

John Broderick
